Attn: Chemical Right-to-Know Program-Consortium No.

Dear Governor Whitman:

The Fatty Nitrogen Derivatives Panel Amines Task Group of the American Chemistry Council submits the subject documents to EPA's HPV Chemical Challenge Program as its test plan for a category covering 29 chemicals. The Amines Task Group includes the following member companies that are sponsoring these chemicals under the Voluntary HPV Chemical Challenge Program: Akzo Nobel Chemicals Inc.; Corsicana Technologies Inc.; Crompton Corporation; Goldschmidt Chemical Corporation; KAO Specialties Americas LLC; Procter and Gamble, Chemicals Division; Rhodia Inc.; and Tomah3 Products, Inc.

This submission includes the following documents:

- (1) Fatty Nitrogen Derived Amines Category High Production Volume (HPV) Chemical Challenge – Assessment of Data Availability and Test Plan;
- (2) Appendix A: Robust Summaries for Reliable Studies; and
- (3) Appendix B: Robust Summaries for SAR Model Data.

This submission is also being sent electronically to the following e-mail addresses:

Oppt.ncic@epa.gov
Chem.rtk@epa.gov

Responsible Care[®]

Christine Todd Whitman

Page 2 of 2

Please be advised that the Task Group is considering the submission of a revised version of this test plan, along with additional robust study summaries, by no later than the end of March 2003. Additional study information has been received which could not be summarized by the end of 2002, and the Task Group anticipates that this information may suggest alterations to the current plan.

If you require additional information, please contact F. J. "Sonny" Maher, Fatty Nitrogen Derivatives Panel Manager at (703) 741-5605 or sonny_maher@americanchemistry.com.

Sincerely yours,

Courtney M. Price
CHEMSTAR, Vice President
